Foremost, Joni was so proud of her family. She loved her siblings, in-laws, nieces, and nephews, and they adored her. She enjoyed the special and unique relationships she had with each of them. Joni will always be remembered for her humor, quick wit, and caring ways. The family will share Joni stories with much love and laughter for years to come.

She worked in the same career her entire adult life, both in clinical and non-clinical settings. Joni cared deeply about patients' clinical experience when she worked in radiology and also when she moved to the business management side as her career advanced.

Joni loved watching sporting events, particularly football and was a devoted Iowa Hawkeye and Arizona Cardinal fan. She also enjoyed politics and could spar with the best of them.

“ I met Joni in 2000 when we began working together. We worked together for 12 years and have remained friends since. Joni was always the smartest and funniest person in the room and I'll certainly miss our private "catty" sessions! We traveled on business together to both Las Vegas and San Diego. She was a wonderful traveling companion. She supported me in my career transitions. She was always supportive and thoughtful to me.

Joni loved her family and was so very proud of their accomplishments. She missed her parents greatly and I bet they had a great reunion on the 4th!

I will miss her very much. She missed an expert panel I wanted her to sit in May due to her scheduled hand surgery. I kept meaning to text her to see how that surgery went but I kept putting it off. Joni's passing has taught me when it comes to communication with our friends and loved ones never to put off till tomorrow what we can do today.

In leu of flowers, I will make a donation to the American Mobility Project in her name.

My love and prayers to all that loved her.

“ I met Joni through work, way back in 1999. She was my "boss" and a no-nonsense tough one at that. We quickly became good friends though, talking for what seemed hours on end, often gabbing more about politics than getting work done. ;-) She made going to the office something to be anticipated rather than dreaded. I didn't do enough to keep up with her during the pandemic, and that was my mistake. I will miss her immensely. My deepest regrets to her family and loved ones. Not good with flowers, so a donation has been made in her name with the American Mobility Project.
