“ *I worked with Greg alot at the Lake Manawa Power Plant. He and I worked out of a crane basket together and installed all the lightning protection for unit 3 there. He was fun to work with and I will never forget him! He was a great guy and a great work partner! May God Bless his family during their grieving of such a loss.*

“ I grew up with the Ashmore Warren family in Valley. I went through school with Greg, Dave and Doug (sisters too). Greg and I were work mates after high school at "Valley Products" producing agricultural products for Valmont. We worked multiple hours through the night (3rd shift) putting out tubs of metal spokes in the shack and transmission beams, axels and check valves on the production floor. Greg was always a great friend! Later in our lives we again crossed paths and worked together on many projects as electricians with IBEW-Local #22 in the Omaha area. It was always enjoyable to work with Greg and have the common bond of "Valley" to relate to. Greg was a wonderful man and professional craftsman. I don't ever remember anything negative about him he always had a positive attitude. I'm glad we were both able to enjoy some retirement time. I know he will be missed by many of his friends and family. I wish the Peace of Jesus for you all.
