“ *Heaven light is brighter and I am guessing a little, heck a lot louder (lol). My friend, I will always smile when I think of you. Thank you for bringing joy and fun into the world and my life. I wont share our special word- but know I just starting laughing thinking about it. I will miss you, but you will always be in my thoughts and heart. May your friends and family have strength during this time. Peace.*

“ *The world needs a lot more Heathers. She was an amazing person who touched so many lives and will continue to do so through her work.*

She was always one of my all time favorite people, and I am so lucky to have gotten to know her. We are all better people for knowing her and her family.

We will miss her forever, but find comfort in the fact that she is with our Lord, cancer and pain free.

God Bless

“ *Heather was such a vibrant soul and so full of life. I loved spending time with Heather, the first time I met her was at the Leap for a cure walk when I brought dogs down from MN for GPPR. I got to meet Carter and Heather at the same time, and I knew that I would come down to the event as often as I could just so I could spend time with Heather.*

Heather was always vicariously living through the Nelson Pointer Palace and facebook since she could not foster. I loved the challenges and comments she would post on facebook, and I swear she loved every photo I posted!

Imagine my surprise last winter as I was leaving the Minnesota State University Mankato Mavericks Hockey Game and I ran into Heather at the Verizon Center in Mankato. She had come up to spend time with her friends, and the coach of the team, Mike Hastings. She was infectious, making everyone smile around her even as you could see she was tired. I left the arena smiling because of her!

Thank you Heather for bringing that sunshine and life to all of our lives, now you can love on all those dogs in heaven, there are no limits now!
