“ *There are many things I remember about Kelly, his great smile, his carefree attitude, but most of all he was the most kindhearted person I have ever met. Kelly would do anything to help anyone. I met Kelly through my brother Frankie. Kelly is his best friend, then we started hanging out and we became good friends. He enjoyed spending time with my dad, they would sit for hours and talk about their cars and the occasional fishing trips. Kelly was always there when I was upset, we would hang out and see concerts together. Kelly spent a lot of time with our family. This is very devastating to our family we have lost one of our own. All the memories of the times we were blessed to have with him will never be forgotten. Kelly will live in our hearts forever.*
